

## Hazardous Material Certification

For the protection of BMT employees we need to know about any possible hazardous contamination outside and inside of our products prior to any repair and service.

Instruments not free of such substances **may be rejected by BMT**.

Type of product:
Serial number(s):

Please describe the status of the returned instrument regarding hazardous substances below (check one):

<input type="checkbox"/> The products have not been exposed to any hazardous substance at any time
<input type="checkbox"/> The products have been completely decontaminated and contain no residual hazardous substances
<input type="checkbox"/> The remaining contamination is not unhealthy, toxic, carcinogenic, radioactive, microbiologic, explosive, corrosive or caustic, it is harmless <b>and contains</b> (insert here):

Herewith, I certify that the products being returned to the factory are **free of any hazardous substances**, as stated above:

Undersigned:	Your Company:
Date & Signature:	

Any comparable statement with signature is welcome.

In case the BMT 964 has to be sent in for service or repair, please use this
