

Hazardous Material Certification

For the protection of BMT employees we need to know about any possible hazardous contamination outside and inside of our products prior to any repair and service.

Instruments not free of such substances **may be rejected by BMT.**

Type of product:
Serial number(s):

Please describe the status of the returned instrument regarding hazardous substances below (**check one**):

<input type="checkbox"/> The products have not been exposed to any hazardous substance (other than ozone) at any time
<input type="checkbox"/> The products have been completely decontaminated and contain no residual hazardous substances
<input type="checkbox"/> The remaining contamination is not unhealthy, toxic, carcinogenic, radioactive, microbiologic, explosive, corrosive or caustic, it is harmless and contains (insert here):

Herewith, I certify that the products being returned to the factory are **free of any hazardous substances**, as stated above:

Name of undersigned:	Date and Signature:
----------------------	---------------------

Any comparable statement with signature is welcome.

The **feed gas** used for the ozone generator is as follows:

<input type="checkbox"/> Liquid Oxygen	<input type="checkbox"/> bottled Oxygen	<input type="checkbox"/> PSA, VPSA	<input type="checkbox"/> dry air	<input type="checkbox"/> don't know
<input type="checkbox"/> N2 or other gas added for performance	<input type="checkbox"/> analyser does not measure generator output			

In case the BMT 964 has to be sent in for service or repair, please use this

Service: Checklist
