

# FLOWMETER FM 114-10

*Ozone-resistant*

## FEATURES

- stainless steel, borosilicate glass & FFKM
- ideal for low flow rates
- scaled at 1 atm.

The FM 114-10 is an ozone-resistant gas flowmeter for the gas flow measurement of ozone in oxygen or air.

## SPECIFICATIONS

materials in wetted path	stainless steel, borosilicate glass, FFKM
range	100 to 1000 ml/min
max. inlet pressure	6 bar g
calibrated for	oxygen @ 21.1 °C / 1 atm.
gas ports	for 3x5 mm tubing (FEP, PTFE), optionally for 4x6 mm tubing
dimensions (W x D x H)	approx. 32 x 32 x 140 mm plus fittings

Dimensions:
